

Classified Safehouses & Black Sites

All safehouses are **non-traceable** and use multi-tiered security structures to ensure no agent can identify more than two at any given time. The following are currently active:

[DO NOT MEMORIZE. DESTROY AFTER READING.]

Safehouse K-41 (New Delhi) – Accessible through the **underground maintenance hatch** at "Gopi's Tea Stall." Entry requires biometric authorization + a 4-key cipher.

Safehouse H-77 (Berlin) – Disguised as a **candle shop** near Friedrichstrasse. Purchase of a **black lavender candle** initiates the entry sequence.

Facility X-17 (Black Site - Location Unknown) – Used for high-value targets. **Zero external records exist.** Entry requires authorization from Level-9 operatives.

The Silent Room – A facility equipped with **anechoic shielding**, ensuring no electrical signals can escape. Any captured individuals are kept in complete **sensorial deprivation** until interrogation is complete.
